

Red Carpet Instructions

For questions on operating, please contact us during normal business hours at (408) 747-1000.

After hours and emergencies, please call (408) 422-7043.

Precautions

- Do not use tape on top of the carpet. If necessary, double-sided tape may be used from the bottom.
- Never get the carpet wet.
- Always treat the carpet with care. Tire tracks, oil stains, and other signs of abuse/neglect will incur extra charges.

For the Ultimate Red-Carpet Experience

The carpet has been purposely rolled with the red carpet out to keep the edges down when it is rolled out. Please take a little extra time keeping the carpet off the ground while rolling it out.

Prep for Return

After use, the carpet may be rolled up loosely with the carpet on the inside.
